

# Early Intervention

## Sensory Detective Program

Our experienced Early Intervention team partners with families to support your child's learning through establishing foundations for future growth and development. We offer individual and small group programs.

Our services are individualised and include education about child development, therapies, working towards developmental goals and transition to childcare, preschool and school.

Our Early Intervention individual and group programs are engaging and fun, to assist our clients reach their potential.

## Sensory Detective Program

### Target Group

Children aged 4-6 years who have sensory issues, requiring extra support.

### What to Expect

The Sensory Detective Program is a research-informed early intervention program, drawing on over a decade of experience and research. The program is delivered individually and teaches children to identify their body's responses to sensory input.

Support is provided by an Early Intervention Consultant who has specialist training in working with children who have developmental or sensory issues.

Sessions are weekly for 10 weeks.

### Delivery

Our Early Intervention Consultants work in a variety of ways including:

- Providing individual support
- Developing home based programs
- Providing resources & information

### Goals of the Program

Children will:

- become aware of body signals and be better able to self-regulate.

Families will:

- learn to decode their child's behaviour and identify sensory triggers.

Educators will:

- be able to provide sensory accommodations to the student.
- Feel supported and confident in working with students with sensory issues.

### Aims of the Program

Individual Early Intervention support aims to monitor and develop the skills important in preparing for preschool and school.

### Outcomes

Outcomes may include:

- Meeting specific individual goals
- Connecting families
- Access to the community
